

## THE RETURN OF THE FUSION CLANS

DELEGATES AND NOMINEES DRIFT BACK TO THE  
CAPITAL CITY

**"Boss" Weber Gives The Fusion Party Some Good Advice  
He is Satisfied With the Ticket**

Yesterday the delegates from the two conventions began to arrive. Some landed on the morning train and others waited for the local, as the strenuous life of the past few days had all but put them out of commission.

Among the early arrivals were Judge Woodburn and Printer Maute. While the delegates strung along the street. The Governor didn't arrive until the afternoon train, while Nate Roff was at his desk in the land office at an early hour. Even the Republicans, who were there, drifted in in pairs and they hunted a bed early in the day, to get the much needed rest that they were entitled to.

Among the delegates was Boss Weber, of White Pine county. He seemed as fresh as a daisy and refused to even take a room that his brother Jake proffered. The Boss is never a quitter and always stays with the fight until the last gun is fired. He is never tired of talking politics and in a conversation said:

"The ticket is all right. Everybody can't be pleased, especially when their man is defeated. But in my case, where I was making a fight for a brother and find that he is beaten by a party man, I haven't a word to say. Had the fight turned the other way and the Democrats been given the Connership, my brother would have received the nomination without opposition. When I found that the Conference Committee had turned the office into the Silver party delegation, my man went down and out without any ifs and ands. The entire ticket is all right. It has strength and the men composing it are strictly Nevadans, and that's the kind to build a State

with. There is one thing the boys want to bear in mind, and that is that the fight for election is no walk over. If they will only work as hard for harmony and victory in the field as they have in the conventions, the ticket can be made a winner from top to bottom. This fight is going to be a hard one. The Republicans have combined their forces, and it is my opinion that they will receive all the financial assistance that is needed.

"The Fusion men will have to look to every corner and see that they don't overlook a trick. It's votes that count, and they must be looked after in every precinct in the county. Another point is harmony. Since the men in the conventions managed to maintain a big fight with perfect harmony, there should be just as much of an effort made to preserve peace from this time on. It can be done, and if this is not done it will be bad for the ticket. Considering the amount of work that had to be done, and the disposition of several members to breed ruction in the ranks, which was promptly knocked in the head, the parties can be congratulated on the manner in which it was handled. Yes, it's a good ticket and will win on election day."

As is always the case, the ticket was talked over by the people and especially the men in the party. Some found fault, but as a whole the Fusion party men are satisfied with the result and place every confidence in the ticket winning from top to bottom. They all realize that there is a hot campaign in store and this county will be among many in which there will be harmony among the members.

### Silver Party Platform

We, the representatives of the Silver party of Nevada, hereby reaffirm the principles upon which the party was founded as enunciated in our last State platform and declare our unyielding fidelity to those principles.

We deplore the untimely death of our late President William McKinley, and express our horror at the crime of his assassination.

**Money Question**—We unequivocally condemn the Republican party for its attitude upon the money question.

The improved business conditions which have followed the increased supplies of gold fully support the great bi-metallic contention that the country was suffering from a contracted money volume.

Many of those who are now acting with the Republican party admit that what is called Republican prosperity, is, in reality the result of more money in circulation, the very thing which the leaders of the party declared to be unnecessary.

We deny that silver is a dead issue. The question of silver coinage is merely a part of the larger question of money in general, and this question is ever with us, presenting itself in varied forms and ways.

We believe that the free coinage of silver would add largely to the measure of the existing prosperity and especially here in Nevada, a State so deeply interested in silver mining.

**Bank Currency**—We are opposed to every scheme for the inflation of our currency by means of bank notes which are not and can not be full legal tender, and the volume of which depends upon the caprice or interests of banks.

**Revenue**—The Silver party of Nevada reaffirms the revenue plank enunciated in the platform of 1900, and calls the attention of taxpayers to the fact that since that time the revenue law enacted by the Silver and Democratic legislature in accordance with such pledge that four millions of property valuation has been added to the assessment roll and the State tax thereby reduced twenty per cent.

**Taxation**—We are in favor of taxing patented mines and mortgages. **Trusts**—We are opposed to trusts and monopolies in every form. We favor appropriate legislation in this line, and to whatever extent the present tariff fosters and encourages the growth of these great industrial combinations, we insist that it should be modified and reduced so as to relieve the American consumer from the extortion of trusts and monopolies.

**For an Eight-Hour Law**—We favor the protection of labor unions in every just right and such legislation as will make eight hours a lawful day's work. We favor a constitutional amendment providing for the initiative and referendum.

**Election of Senators**—We adhere to the view expressed in our last State platform that United States Senators should be elected by direct vote of the people.

**Education**—Being proud of the educational institutions of our State which are equal to, and in many instances superior, to like institutions in other States, we cordially indorse the administration of our educational institutions and pledge our party and representatives to support the same in all proper ways.

**Railroads**—We recognize and appreciate the commercial improvements and concessions of the Southern Pa-

## A RENO TRAGEDY

ONE MAN KILLED ANOTHER  
BADLY WOUNDED

**The Trouble Was Over Money  
and Whiskey**

For the space of thirty seconds last evening about 5 o'clock bullets flew thick and fast in the New Tivoli saloon at the Bank of Nevada building. One man is lying with a bullet in his shoulder and a ragged hole in his groin. Another man is at the county hospital with a pistol wound in his thigh.

There were probably no eye witnesses to the shooting, at least no willing witnesses have come forward and in the event of one of the injured victims dying the evidence against the other will probably be purely circumstantial.

The New Tivoli saloon is conducted by Claire Gaylor and Frank Ralston. Mr. Gaylord was down on Commercial street when the shooting occurred and Ralston was alone in the saloon with Ed. Broderick, one of the injured men.

According to one story Mr. Ralston went out of the rear door of the saloon for a moment, leaving Broderick in the front of the building. When Ralston returned Broderick was standing near the door, facing him with a .38-calibre revolver holding five shells.

Broderick fired, the bullet striking Ralston. The latter advanced upon the gun fighter who fired again wildly and then third time, again wounding Ralston. He sprang upon Broderick before he could shoot again, wrested the pistol from his man and shot him through the hip.

By this time the gun was empty and both men were faint from loss of blood. Broderick staggered out of the building in an effort to make his escape. He got only a few feet and was detained in the rear of Casper Becker's establishment until the officers arrived. Policeman Resseguie was the first to appear. He took charge of the empty revolver with which the shooting was done.

Frank Ralston's injuries were found to be very serious indeed, and although he was quickly carried to Dr. Woods' office and given every possible attendance, it was some time before the hemorrhages could be checked. He was resting easily at a late hour last night, but Dr. Woods would give no positive hopes of his recovery.

There are two stories as to the causes leading up to the shooting. Broderick was in the employ of the railroad contractors and when he came to Reno brought with him a check for \$80.70. This he could not get cashed in Reno and it was sent away for collection. In the meantime Broderick was given credit in money and drinks at the New Tivoli in the amount of \$15.25.

When the money arrived Broderick paid this account and was taken out by Gaylord who purchased him a suit of clothes. With balance of the \$80.70 Broderick acquired a large sized jag. —Journal.

Since the Journal published the above, Ralston has died of his wounds. It is believed that Broderick will recover.

Davey & Maish have a very attractive show window especially to the small boy.

The hunting season is open and we have a large stock of all kinds of ammunition. The Fox Store 1w.

## NEWS CONFIRMED

STRIKE AT TONOPAH A BIG  
AFFAIR

**It Boosts the Value of Other  
Claims**

NEWS CONFIRMED  
The news of the strike of another rich body of ore in Tonopah has been confirmed. A private dispatch was received in this city yesterday which stated that the strike on the Mizpah extension consisted of a twenty foot ledge of low grade ore, but that it resembles the Fraction ore. Property near by has advanced materially and new life has been injected in the camp. This strike, according to such men as Wils Brougher, will make Tonopah the greatest mining camp on the face of the earth.

### For Senator

In another column will be found the political announcement of A. Livingston, for the position of State Senator, subject to the nomination of the Democratic and silver party county convention. Senator Al is not a new man at the business, as he represented this county for the past two terms of the Legislature. He has looked to the interests of Ormsby county ahead of the rest of legislation, and in this made a representative man for the position. He is the first man to say his castor into the Fusion arena, and this will undoubtedly give him an advantage.

### Accidentally Shot

Frank Dunlap, a brother-in-law of Wm. Musser, of Markleeville, was accidentally shot at the Blue Lakes Wednesday evening. Frank Monroe of Markleeville had a pistol which he desired to sell and pulled it out of his pocket to show it to a third party. As he was taking it out of the scabbard it went off, the ball striking young Dunlap in the side near the back and probably passing near the spine. A medical student at the Lakes dressed the wound and the young man was brought to Woodfords. Yesterday morning Dr. Gerdes was called from Gardnerville and left the patient resting easy about noon, although the bullet had not been located. Dr. Gerdes thinks the young man will recover from the accident unless serious complications set in.—Courier.

### Death of Jesse Allen

Jesse Allen, a Carson Valley boy, well and favorably known in this city, died in Gardnerville yesterday. He had many friends in this city who will deeply regret to learn of his untimely death. He had been sick but a few days with typhoid fever. The past six years Mr. Allen has been engaged in the well boring business. He has completed over twenty artesian wells in Carson valley. His last illness was probably caused by over work while boring a well at Keeler, Cal.

### An Oversight

In the account of the nominations made by the Fusion convention in yesterday's Appeal, the name of James G. Sweeney, of this county, was overlooked.

We intend to discharge the editor for the same. The nominee for Attorney-General is strictly a home product. Jim is a native of this city, and his selection on the ticket, is a source of great satisfaction to his many friends here. He is one of the most promising young lawyers of the State, and in his selection the young men of Nevada have a chance to vote for a native-born son, and one who can fill the office with credit and honor. His voice will be heard over the State during the campaign, and the rest of the State can judge of his ability.

### Look Out For Your Dog

At the Schulz slaughter house a lot of poison has been scattered for coyotes and hunters who value their dogs had better steer clear of the place. The coyotes have destroyed half a dozen sheep in the past ten days and the poison has been set for them. Three of the pesky animals have already fallen to the deadly drug.

John Catton and wife expect to leave for a three month's visit to Canada next week.
